Here's to the jolly drummer, with his captivating meaners.
To the galiant gent who travels with a case;
To the man who's full of "hustle" and who hammers, hammers, hammers.
Pushing business all the time and every place.

What would business be without him?
Why the thought is too appailing—
Did you ever stop a momen's time to
Think?
And this life of ours cut from him, 'iwould
indeed be very gailing,
From the thought of such calamity we

If you need him in the morning, like as not his salutation Will be "Howdy, Fill be down to see

Wine Cardu CHANGE OF LIFE.

Women should carefully prepare for that functional change which takes place between the ages of forty and fifty years. Without proper care and treatment during this critical period a woman usually becomes a helpless invalid and never regains her strength. When the "turn of life" is past in safety a woman is hardly ever sick again. Women approaching this important change should always use McElree's Wine of Cardui regularly. This pure bitter wine prepares a woman for the new conditions and builds up the entire system. Thousands of women use it for this trouble every year. It does not force a result, but simply assists nature to do its work. Nothing helps women so much at this great crisis as Wine of Cardui. Druggists sell it at \$1.00 per bottle.

I enjoyed fairly good health until I was forty-two years of age, when symptoms of Change of Life appeared, and I became very weak and nervous, and suffered pains in all parts of my body. For four years my strength, energy, ambition, appetite and flesh were My menses would appear and continue from ten to twelve days, and then teturn in two or three weeks with flooding spells. When I commenced the Wine of Cardui and Black-Draught treatment I was confined to my bed, too weak to walk, and had no appetite. It soon cured me, and I now feel entirely well.
